ASAPVal BUSINESS RATINGS

Revolutionary service that redefines the future of valuation industry

Our Mission

Our mission is to provide affordable and quick valuation services for SMEs. We believe that every company, regardless of its scale, should have the rights to know its own business value and thus control the fate of their development.

In the past, only listed or large companies could afford the budget of valuation services. High barriers for valuation services have discouraged many SMEs from knowing their own business values. Hence, they are placed at disadvantages when it comes to financing and equity transactions negotiation, hindering their business growth and development.

In view of this, we have developed ASAPVal Business Ratings, an artificial intelligence-based system, which intends to use technology and our own expertise to help these SMEs to obtain preliminary valuations of their companies in a quick and affordable way.

We believe this revolutionary service will allow SMEs to capture development opportunities and redefine the future of the valuation industry.

An ASAPVal Business Ratings Certificate

This certificate will indicate the preliminary valuation range of the appraised company under ASAPVal Business Ratings. This certificate can play a reference role in the following (but not limited to) corporate activities:

- Financing
- Equity transactions
- Mergers & acquisitions
